Business Builder AI Academy

Module 1 • Week 1: Entrepreneur Mindset

This handout helps you understand how entrepreneurs think, what entrepreneurs do, and which entrepreneur traits you already have or want to build.

Student Name:		**Date:**	

Key Concepts

- Entrepreneurship is about noticing problems, creating value, and helping people - not just making money.
- Entrepreneurs identify needs, create products or services, test ideas, learn from feedback, and improve over time.
- Important traits include creativity, curiosity, problem-solving, responsibility, resilience, communication, ethical decision-making, willingness to learn, and follow-through.

Activity 1: Entrepreneur Trait Self-Assessment

Rate yourself from 1-5 for each trait. Then write one action you can take to grow that trait.

Trait	**My Score 1-5**	**One way I can build this trait**
Creativity		
Curiosity		
Problem-solving		
Responsibility		
Resilience		
Communication		
Ethical decision-making		
Follow-through		

Activity 2: Businesses Around Me

Identify three businesses you already interact with. What problem does each one solve?

Business	**Customer**	**Problem solved**

Reflection Questions

1.	
2.	
3.	

Deliverable Checklist

- ☐ I completed my Entrepreneur Mindset Profile.
- ☐ I identified three businesses and the problems they solve.
- ☐ I wrote one entrepreneur trait I want to improve this month.

Student Safety / Responsible AI Reminder
Be honest in your answers. This is about learning where you are today and deciding what you want to build next.
